

PORT AUGUSTA WEST PRIMARY SCHOOL

Grievance Procedures

At PAWPS we support the right of any member of the school community to have grievances, issues and concerns addressed confidentially, promptly and sensitively.

The usual procedure to be followed in addressing a grievance is, in the first instance to approach (either personally or in writing) the person with whom you have a grievance, issue or concern.

When raising a grievance, issue or concern staff, parents and students are expected to:

- treat each other with respect and courtesy
- raise the concern as soon as possible
- provide complete and factual information
- act in good faith to achieve an outcome acceptable to all parties
- have realistic and reasonable expectations about the course of action required to resolve the concern
- maintain confidentiality

Things that do help include:

- checking out the facts straight away with the person/s most likely to know, so that misunderstandings and rumours can't get started
- recognising that there is always another side to the issue (or indeed several sides depending on how many people are involved)
- asking a trusted friend to go with you to discuss a problem if you feel you need support
- being clear about the "next step" if you feel that your first attempts haven't been successful

Things that don't help include:

- talking about it with others who don't have all the information either (that's how rumours start!)
- acting as if there is only one side to an issue forgetting that the "other people" have feelings too
